

TOPPERS

One Week English Riding Program

Co-ed Ages 9 - 14

The Toppers program provides hands-on quality instruction for a small group of experienced riders. Riders participate in a minimum of 2 one-hour riding lessons each day, a horsemanship lecture and 2 one-hour camp activities; such as waterskiing, sailing, pottery, tennis, etc... Always fun, are the Gymkhana games, horseless jumping, video critique and musical drill team!

Nashoba's lessons are taught by qualified instructors on well-schooled horses and ponies. We have four riding arenas and two stables within our camp facility on picturesque Crescent Lake in Raymond, Maine. Our lecture and discussion series will cover many pertinent subjects such as feeding, grooming, points of the horse, conformation traits, body markings, breeds, braiding, course design, bandaging, first aid, lunging, saddle fitting, methods of judging and much more. We will have organized field trips, professionals lecturing; including a locally recognized veterinarian on pre-purchase exams and our registered farrier will demonstrate proper shoeing techniques.

Our hands-on approach fosters confidence while teaching safety skills around horses. Toppers gain a true understanding of horsemanship while in a traditional sleepaway environment. Campers live in modern cabins complete with electricity, sinks, toilets and hot showers. Laundry is done each week by staff and a suggested packing list will be provided. All riders must have an approved harness helmet, riding boots and breeches. Attire is active casual at camp. Please view our wonderful DVD and Virtual Tour showcasing our facilities.
